Dear friends,
the new text book on “Advanced Therapy of Breast Disease” currently appeared. The editors invited me to write the chapter 40 on the “Advancements in Oncoplastic Surgery of the Breast”.

I like to mention the new book to all, who are working in the “universe” (Sledge) of breast cancer treatment because “breast cancer therapy has changed dramatically over the past century and continues to evolve at an ever increasing pace” (Babiera/ Skoracki/ Esteva).

The book is priced at \$279, and is available now from PMPH-USA www.pmph-usa.com, your local bookstore, and many online vendors such as Amazon.com.
For more information about the book, contact Linda Mehta, Senior Medical Editor, PMPH-USA, lmehta@pmph-usa.com

Kind regards
Werner
